7. Recognising and Reporting Abuse

All staff, volunteers and trustees will be vigilant regarding the welfare of all service users.

Staff, volunteers, and trustees will be trained in recognising signs of abuse. Safeguarding is a mandatory training course for all staff, volunteers, and trustees.

Abuse may take a variety of forms, such as (but not limited to): **(refer to Appendix C)**

- Physical Abuse
- Sexual Abuse
- Emotional/Psychological Abuse
- Neglect
- Radicalisation

- Child Sexual Exploitation
- Financial/Material

Any member of staff, trustee or voluntary worker who knows or believes abuse is occurring to any persons within the organisation must report the matter to the Designated Safeguarding Lead (DSL) as quickly as possible, either directly or via their line manager (see section 8 below). The DSL will determine what action to take in accordance with the local authority guidance and in line with information sharing. If the allegation is against the DSL, then the matter should be reported to the CEO.

If the person is in imminent danger the police should be called and the Local Authority must be notified.

8. Allegations of Abuse

If an allegation is made of abuse, be it adult to adult, adult to child, or child to child, they must be listened to and taken seriously and must be reported immediately. Wherever possible, allegations should be managed by two members of staff and the child or adult and if required should always have an advocate/support worker or parent/carer present. Leading questions must not be asked otherwise it could make it inadmissible in court and you must only write down the facts of what the person has said not your opinion. Taking the strategy from 'TEDS PIE':

- **T**ell me...
- **E**xplain to me...
- **D**escribe to me...
- **S**how me...

- **P**recisely...
- **I**n detail...
- **E**xactly...

Depending on the severity of the abuse/concern or the project the person is attending, and the arrangements already agreed with their line manager at their supervisions, the allegation needs to be reported to:

- Your Team Leader or Line Manager who will then report it to the DSL.

or directly to:

- Sycamore Trust U.K. Designated Safeguarding Lead (DSL) - **Ann-Marie Lyons-Mummery**

The DSL will then share with:

- Sycamore Trust U.K. Chief Executive Officer (CEO) - **Cheryl Kearney**
- Sycamore Trust U.K. Trustee Chairperson - **Jo Baty**
- Local Authority Safeguarding Team
- Police.
- Sycamore Trust U.K.'s Board of Trustees at their monthly meetings, the DSL will provide an anonymised report of any safeguarding incidents that have occurred.

Trustees' duties are to take reasonable steps to protect from harm people who come into contact with the charity.

If the concern is in relation to the DSL, then the issue must be reported to the CEO, this can be via email, letter, or private meeting, however if these means are not possible a telephone call.

9. Allegations against Sycamore Trust U.K.

Any allegation that a Sycamore Trust U.K. worker has committed abuse will be taken very seriously. Such allegation will be investigated, and the necessary action taken.

Such action will include:

- Referral to the Local Authority Designated Officer (LADO)
- Consideration of suspension of the accused worker pending completion of the investigation to protect both the person making the allegation and the accused member of staff, possible disciplinary action, including dismissal, to protect the integrity of the trust.
- Reporting the matter to the police.
- Reporting to Sycamore Trust U.K. board of Trustees.
- We will be open, honest and transparent in our findings.

If the allegation is found to be true, then Sycamore Trust U.K. is legally bound to refer the worker or former worker to be placed on the adults and children's barred lists which are maintained by the Independent Safeguarding Authority.

10. Missing person/ absconding

Where a child/adult is in the Sycamore Trust's care or accessing our services and has absconded or is missing, every effort must be made by staff and volunteers to locate the child/adult.

The Safeguarding lead worker at Sycamore Trust UK must assess the circumstances surrounding the child's disappearance or absconding to inform judgements about the level of risk to the child/adult.

An alert must be placed with Sycamore Trust CEO and senior / line managers and, where appropriate, the child's parent(s)/ carers or an adults emergency contact should be informed that the child/adult is missing or has absconded.

If the child/adult cannot be located, a 'missing person's report' must be made to the local police office. If there are circumstances of high risk, a report must be made immediately.

In all circumstances the Sycamore Trust UK, child protection or adult safeguarding lead worker is responsible to make sure the report is made, and the CEO is informed.

11. Contact Details

For contact details **Refer to Appendix B, page 10.**

12. Guidelines on procedure to follow when dealing with safeguarding / child protection.

Safeguarding Issues must take priority over all other work.

A young person or adult may choose to disclose information, or staff and volunteers may observe indicators or behaviour that raises concerns around possible abuse. Staff and volunteers must not try to investigate, but rather listen and explain to the young person/adult that they will have to pass on the information, to the safeguarding lead. Staff and volunteers should ensure that the young person's or adult safety is the priority.

An immediate response to the young person/adult at risk is required as we have a duty of care.

It is vital that any staff actions do not abuse the child/adult further or prejudice further enquiries, for example:

- Stay calm and be reassuring
- Find a quiet place to talk
- Believe in what you are being told
- Listen, but do not press for information or ask leading questions
- Say that you are glad that they have told you and thank them.
- Listen to them, if you are shocked by what is being said, **do not** show it.
- It is acceptable to observe bruises but not to ask a child or adult to remove or adjust their clothing to observe them; (injuries must be recorded on a body map and on a Safeguarding Cause for Concern form.)
- Do not under any circumstances question the child or adult in a way that will introduce new words, phrases, or concepts into their minds.
- Do not challenge, confront, or criticise their information, even if it seems unlikely or if there are obvious errors. They may be unable to give accurate timescales or dates.
- If a disclosure is made the pace should be dictated by the individual, whilst considering any communication difficulties they may have, without them being pressed for detail by being asked such questions as "what did they do next?" or "where did they touch you?" The staff and volunteer's role is to listen not to investigate.
- Accept what the individual says. Staff are advised to maintain an attitude of 'it could happen here' where safeguarding is concerned.
- Acknowledge how hard it was for them to tell you this.
- Do not criticise the perpetrator, this may be someone they have affection for.
- Do not promise confidentiality, reassure the individual that they have done the right thing in disclosing to you, explain whom you will have to tell and why. It is important that you do not make promises such as "I'll stay with you all the time" or "it will be alright now".

11.1 Recording Information

- Verbally inform the senior person that you are working with at the time, who will inform the Designated Safeguarding Lead (DSL) **Ann-Marie Lyons-Mummery**.
- Make some brief notes at the time or immediately afterwards developing / maintaining an Action Plan that supports focused action and accountability; record the date, time, place and context of the disclosure or concern, recording facts and not assumption and interpretation. Any notes must be signed and dated and given to the Designated Safeguarding Lead. Write down what has been discussed. If it is appropriate write the conversation down as it is being said but as this is not always possible, it is better to listen and write down immediately afterwards.
- Ensure that this information is transferred to the relevant document either a Cause for Concern Form or a Safeguarding report Form and should be signed, dated, and passed on to the DSL. At this point the DSL will Triage the content of the Report and decide if it is a Child Protection/ Safeguarding matter or a Concern.
- Observed injuries and bruises are to be recorded on a Safeguarding Cause for Concern Form (including the body map section) and be attached to the report.
- Staff and volunteers should note any non-verbal behaviour and ensure that that the language used by the individual (do not translate into correct terminology) is recorded.
- The DSL will ensure that the Safeguarding / Child Protection report reflects decisions made and actions taken in response, including if no further action will be taken.

11.2 Reporting / Referring Process

During normal working hours (Mon-Fri 9.00 am to 4.30 pm) staff should immediately inform their line manager or the DSL (see section 8). If the DSL is not available, contact Cheryl Kearney (Deputy Safeguarding Officer). Outside these hours staff must immediately contact the Lead Person on Duty, who will inform the DSL of the concern.

On the basis of the information, the DSL will consider which route to take with regards to safeguarding and protecting the individual in question:

- Where alleged/suspected abuse has taken place on site, the DSL will liaise with staff/volunteers and, where appropriate, consult the Police or MASH team, in order to formulate an appropriate plan of action.
- Where alleged/suspected abuse has taken place in the young person's or adult home area, then the DSL may consult the MASH team to consider an appropriate plan of action.

Local Authority Social Care Departments will assess referrals and if it meets their threshold, will investigate in accordance with Section 47 of the Children Act (1989).

This may involve speaking with the worker to whom the allegation was made or who observed the abusive behaviour.
